

**THE SILICON
VALLEY OF
SOUND**

UDDANNELSESINITIATIVET STRUER

STUDY «WORK» LIVE

STUDY

In Struer, we create opportunities for educational stays, regardless of your level of education, field, or general interests. You can participate in internships, work on a project, or write your thesis in connection with a company or in collaboration with one of the many players in The City of Sound.

WORK

The Silicon Valley of Sound is a professional and world class ecosystem of well-established sound companies as well as start-ups. With networking activities, we give you a chance to explore career opportunities across our local and international companies.

LIVE

In Struer, we offer a framework for your educational stay with social networking activities and the possibility to live in a shared environment with other interns and students on company placements.

THE SILICON VALLEY OF SOUND

Struer is THE CITY OF SOUND and the world's only municipality that invests in sound as a driver for local development and growth. Sound has for a long time been at the core of the identity of the entire area. We utilize the position to enhance life on all levels – including culture, living, events, welfare, and city planning.

THE SILICON VALLEY OF SOUND

Uddannelsesinitiativet (“The Educational Initiative”) in Struer is a local association, founded in 2023 by local companies and stakeholders.

The association develops, hosts, and facilitates courses, internship placements, and study projects in Struer, aimed at students from higher education institutions in Denmark and abroad.
